

# 10 Benefits of Dismissal + Safety Software for Districts, Schools, and Parents

## Minimize front office calls

Parents and guardians manage dismissal changes from their smartphones; everything from carpooling to bus riding to delegations, and more. Average time savings of 10 hours per week.

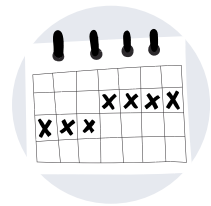

## Say goodbye to sticky notes - Go paperless!

School staff no longer spend their day writing (and misplacing!) dismissal changes. Reduces parent anxiety on if the school received their note.

## Manage absentees

The parent app automates the absentee process and enables staff to stay updated on all absentee students: when, why, and for how long.

## Easy approval process

As guardians make changes to students' calendars, school can review realtime, approve them, and add additional changes as needed. This also helps with custodial issues and approved visitors.

## Increase instructional time

Teachers can view a live feed of dismissal and pick up options for their students at any time. No more interrupting lessons to communicate updates. Average time savings of 15 minutes per class per day.

## Stay safe (and dry!) from inclement weather

Whether it's sunny, rainy, or snowy, our software requires minimal staff outside to manage the dismissal process and students stay safe and dry inside.

## Track every pickup and drop-off

Our records make it easy to keep track of every child at your school. Advanced reports that show dismissal trends over time.

## Secure communication

Every checkin and dismissal at campus are alerted in real-time to the parent. Parents can check their arrival for voluntary work or student drop offs.

## Peace of mind for school and parent communities

From our dismissal dashboard, everyone involved can have a birds-eye view of the entire process, increasing safety and efficiency!

## Safer Dismissals

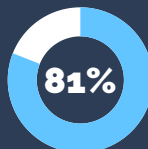

With a real-time view to parents and buses on campus, students are sent to the correct pickup locations every day.

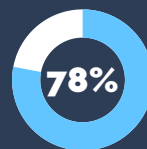

## By the Numbers...

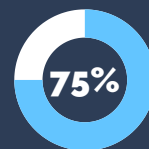

90% of schools say their favorite benefit is increased efficiency

81% of schools see a reduction in traffic congestion

78% of schools see an improvement in safety

75% of schools see faster dismissals
